Visit Yaroslavl, founded in 1010, and explore one of Russia's most beautiful cities. You will take a sightseeing tour, which includes a visit to the Spassky monastery (Saviour monastery), that was founded in the 12th century at the place where Kotorosl River meets Volga. The main church of the monastery is also the oldest building in Yaroslavl: Spaso-Preobrazhensky cathedral (Savior Transfiguration cathedral), which is almost 500 years old (the foundation is 800 years old). It was built very skilfully in the best traditions of Russian architecture of the time. It was the idea of the creators that the cathedral will be different, depending from which side you to look at it: the domes are put non-symmetrically; there are different arches and various paintings on the different sides of the cathedral.

Ded Moroz and Snegurochka will take you into the New Year. Excursions and Russian traditional amusements will keep you excited and happy.
